Haplotype divergence of flowering time regulator genes in sugar beet and wild beets

Exploiting k-mers for genotype-phenotype association in spinach

Lukas Schönmann

Bioinformatics / Genomics Data Scientist | Python · R · ML · HPC · NGS Analysis

Vienna, Vienna, Austria

Experience

Universität für Bodenkultur Wien

3 years 5 months

Research Associate (Computational Biology/Bioinformatics)

June 2025 - Present (7 months)

Wien, Österreich

Working as a research associate and PhD researcher in computational biology and bioinformatics at the Institute of Computational Biology (COBI).

- Performing large-scale genomic data analysis (NGS data, k-mer-based GWAS, structural variant detection)
- High-performance computing (Linux cluster, Austrian Scientific Computing cluster, Terabyte-scale analyses)
- Data science workflows (R data visualization, Jupyter notebooks + Polars/Pandas)
- Development of bioinformatics tools (Python, Rust, CI/CD, documentation)
- Manuscript preparation, student supervision, and scientific communication

Focus: plant genomics (spinach, beet), k-mer analysis, reproducible computational pipelines.

E-Multiplier

July 2024 - May 2025 (11 months)

Wien, Österreich

Advising and supporting instructors in planning and implementing online-supported teaching. Further development of the university's e-learning system "BOKUExams", including automated generation of exam questions and the addition of new practice exercises.

Student Assistant at the Institute of Computational Biology

November 2022 - May 2025 (2 years 7 months)

Wien

Tutor at the Institute of Statistics

October 2022 - June 2024 (1 year 9 months)

Wien, Österreich

Tutor for the courses 'First Steps with R' and 'Statistics with R'

Studentisches Praktikum am Institut für Computergestützte Biologie
August 2022 - October 2022 (3 months)

Wien, Österreich

Universität für Bodenkultur Wien

Tutor

June 2022 - June 2022 (1 month)

Wien, Österreich

Tutor for organic chemistry practical courses;

liquid-liquid extraction, (micro-)distillation, recrystallization, thin layer chromatography, synthesis.

STAMAG Stadlauer Malzfabrik GesmbH

Internship lab technician QM

August 2019 - August 2019 (1 month)

Wien, Österreich

Conducting cereal chemistry analyses as part of raw material quality control.
Performing malt analytics (EBC, Kjeldahl, MEBAK). Supporting audit activities.

Education

Universität für Bodenkultur Wien

Diplom-Ingenieur, Biotechnology · (August 2021 - April 2025)

Universität für Bodenkultur Wien

Bachelor of Science - BSc, Food Science and Biotechnology · (October 2017 - June 2021)
